

FAQs

What's the difference between you and a venue coordinator?

In most cases, your venue coordinator is responsible for your venue set up and logistics as it directly relates to the venue. Sometimes they are also included in Food and Beverage. An outside wedding planner will manage ALL other aspects including design, timeline creation, budgeting, arranging your vendor team, and handling all communication. Hiring a wedding planner will decrease your stress level and hours spent planning so that you can enjoy your engagement!

What are the next steps to learn more?

Contact me to set up a meeting. Text or email is fine. Please include wedding date and estimated guest count.

Do you travel for weddings?

Yes, however there may be associated travel/lodging fees.

Do you bring an assistant day-of?

For a Day of Coordination Package, it depends on the time constraints and décor.

All other packages will include an assistant.
